I V B S - M e m b e r s h i p

Do you regularly deal with people who are affected by associated heterophoria and want ...

- ... to know more on the topic of binocular vision?
- ... to make contact with other areas of expertise?
- ... to benefit from opportunities by being able to offer professional solutions to your clients?
- ... to receive continuous professional information?
- ... to belong to the association of the experts for binocular vision?

Then you should continue to read. The IVBS cordially invites you to become a member. Together we are able to concentrate our forces and apply them to the benefit of people concerned.

Extend your competence:

Become a member of IVBS!
But who or what actually is the IVBS?

The International Association for Binocular Vision IVBS was founded in the year 1988 under the former name IVBV (International Association for Binocular Fullcorrection). In this association, being registered in Switzerland, members of various professional fields interdisciplinary commit themselves to optimal vision.

Members are e.g. ophthalmic opticians/optometrists, ophthalmologists, orthoptists, natural scientists, pedagogues and therapists.

Their common goal is to achieve the best possible survey and solution of problems which are caused by a malfunctioning binocular vision.

In particular the IVBS is campaigning for spreading the **MCH** (**M**asuring and **C**orrecting Methodology after H.-J. **H**aase) and for incorporating into its further development new scientific findings from research and from an overall exchange of professional experiences.

Further information on IVBS is to be found under "www.ivbs.org".

Which advantages are offered to you by the membership?

Here is our service offer:

- IVBS-congress each year: facts, new scientific findings and first-hand practical experiences. Discussion with experts, information about numerous aspects on an important topic of modern optometry. As a member you get appr. 50% price reduction on the fees for lectures and seminars.
- IVBS-seminars: 20% price reduction on the fees for on-site seminars.
- IVBS-forums at regional level: free of charge participation in regional evening lectures.
- Professional journal "Deutsche Optikerzeitung": 50% price reduction for two years with a new subscription.
- Members magazine: free of charge sending of "IVBS Info" with IVBS small advertisements three times each year.
- IVBS-publications: 10% price reduction for literature orderings above 100,- Euro.
- Literature voucher: 30,- Euro per year for self-employed members.
- Serial writings congress lectures: free of charge sending of new release of a volume.
- Register of members in the internet: by request you will be named on the website of the IVBS as experienced user of MCH and thus can be located by persons concerned who look for an expert in binocular vision in their vicinity.

The need for prism eyeglasses is growing. Become active!

High demands on vision lead to increased requests for experts in the field of binocular vision.

Perhaps you belong to the many ophthalmic opticians who have acquired knowledge of the MCH but have not yet gained the "jump ahead into practice" so far? Dare to do it now! We support you in doing so. The IVBS makes it possible for you to freshen and broaden your expert knowledge through selective training measures.

Our program for further training provides topics for advanced users to further specialize themselves on the highest level.

Through your membership you strengthen an important politically uncommitted professional association standing for a professional and undogmatic handling of prismatic corrections.

Advice for students

Are you a student in the field of ophthalmic optics/optometry and want to get to know the work of IVBS?

We offer to accompany the course of your studies with an attractive service offer – of course free of charge and guaranteed without any obligation (no "fee trap").

Ask our office for noncommittal information on the **junior membership** or get information online under "www.ivbs.org" (keyword "junior" in the search box).
